Defense Transportation Coordination Initiative (DTCI)

- **Evolution**: Tenders—Guaranteed Traffic (GT)—Tailored Transportation Contracts (TTC) and now DTCI…
  - **Why** DoD wants it: Efficiency and effectiveness…
  - **What it will do:** Coordinate, Optimize, and Consolidate Enterprise Operations; Improve ITV CONUS wide; DDC 1st, limited service installations 2nd, all DoD installations 3rd.
  - **Concerns:** Is it legal IAW CFR 49? Cost to the services? AIT? 3PL track record is not that good; Any Negative effects on current TTC carriers that support us during Deployment/Mobilization?
